

The goal: a greener and more efficient plastic industry

Uniloy and Baumüller Join Forces to Revolutionize Plastic Machinery Industry

Orlando, FL, U.S. – May 6, 2024. Uniloy, a leading global provider of blow molding machines and related services, has entered into a groundbreaking collaboration agreement with Baumüller, a renowned drive and automation technology pioneer. This strategic partnership marks a significant milestone in the plastic machinery sector.

Under this collaboration, Uniloy will harness Baumüller's advanced digital technologies to enhance its plastic machines for energy efficiency, precision control, and seamless integration with Industry 4.0 standards, empowering manufacturers to achieve higher productivity and profitability while reducing their environmental footprint. This represents a fusion of Uniloy's decades-long expertise in blow molding and structural foam molding with Baumüller's innovative drive and automation solutions.

"We are thrilled to partner with Baumüller to bring forth the next generation of plastic machinery," said Gary Riley, CEO at Uniloy. "This collaboration exemplifies our commitment to innovation and sustainability for developing the future of plastic manufacturing."

Diago Areces, the CEO at Baumüller-Nürmont Corp., is equally excited about the partnership's potential. "We are proud to collaborate with Uniloy to integrate our technology into their machines. Together, we aim to set new standards for performance, sustainability, and digitalization in plastic manufacturing, empowering businesses to thrive in a rapidly evolving market."

About Uniloy:

Uniloy is a global leader in blow molding technologies and the only blow molding machine manufacturer to offer four unique blow molding technologies, blow molds, and associated tooling. Uniloy has a global footprint, ensuring close proximity to its customers, that will deliver world-class sales, service, and aftermarket support. With a legacy of innovation spanning decades, Uniloy is committed to delivering cutting-edge solutions that drive productivity, efficiency, and sustainability in the plastic industry.

About Baumüller-Nürmont Corp.

Baumüller-Nuermont Corp. is a wholly owned subsidiary of Baumüller. We offer a broad range of services, from single parts to the design of complete automation systems, from assembly and installation services to complete plant relocations. Located in Atlanta, Chicago, Mississauga, Canada, and Queretaro, Mexico, Baumüller-Nuermont Corp. is present in North America to meet the needs of technology for sustainability, efficiency, and productivity of the local customers.

About the Baumüller Group

Baumüller is a leading manufacturer and solutions provider of intelligent drive and automation systems, bringing digital technologies to industrial manufacturing, e-mobility, and other market segments to maximize sustainability, circularity, efficiency, and performance.

Baumüller has its headquarters in Nuremberg, Germany. At production sites in Germany, the Czech Republic, Slovenia, India, China, and over 40 branch offices worldwide, around 2,000 employees develop, manufacture, and sell intelligent system solutions for machine manufacturing and e-mobility.

In addition, the range of services offered by the Baumüller Group includes engineering, assembly, and industrial relocation, as well as services and after sales services, thus covering all aspects of the life cycle of machine manufacturers and end users.
