

## **Uniloy Announces Two New Appointments to the Roles of Global Vice President of Technology & Engineering and Regional Sales Manager**

**Tecumseh, MI – (August 22, 2024)** – Uniloy, Inc., a global leader in blow molding machines, mold technology, OEM parts, and expert service, has named Chris LaBombarbe the Global Vice President of Technology & Engineering and Chris Weinrich as a Regional Sales Manager.

Prior to joining Uniloy, LaBombarbe served over 25 years in several senior leadership roles within Mold Masters, Amcor, Coca-Cola, Ford Motor, and 3M, leading emerging market global teams in North America, Latin America, Asia, India, and Europe. His background includes extensive experience in the plastics industry, including OEM machinery, tooling, packaging, and automotive industries, where he has demonstrated success in developing breakthrough technologies, with several international innovation awards and patents. LaBombarbe has a Bachelor of Science in Plastics Engineering and an Associate of Science in Statistics.

Weinrich has more than 30 years of experience in the plastics industry. He served 15 years at Conair, holding the positions of Director of Packaging & Medical and General Manager Extrusion, before joining Uniloy. He also spent eight years as the global product and sales manager at Xaloy, Inc. Weinrich has a Bachelor of Science in Mechanical Engineering and an MBA.

“It’s a pleasure to welcome Chris LaBombarbe and Chris Weinrich to the Uniloy team,” said Gary W. Riley, Sr., CEO of Uniloy. “They each bring extensive experience in plastics that will benefit our company and our customers.”
