

*Uniloy CEO, Gary Riley, Named Keynote Speaker at 39<sup>th</sup> Annual Blow Molding Conference*

**Tecumseh, MI – (October 8, 2024)** – Gary Riley, CEO of Uniloy, Inc., a global leader in blow molding machines, mold technology, OEM parts, and expert service, will be the keynote speaker at the 39<sup>th</sup> Annual Blow Molding Conference, October 7-9, 2024, in Peachtree City, Georgia. The keynote address will be delivered on Tuesday, October 8, 2024, at 9:20 a.m. The event showcases the latest technical developments and provides insights from industry leaders on packaging and industrial applications, machinery and design innovations, market trends, materials, processing, and more.

Riley has been the CEO of Uniloy since 2022 and has held leadership positions in the plastics and global manufacturing industries for over 40 years. In his keynote address, he will cover the state of the plastics industry, including the challenges it's facing, ranging from increased governmental regulations to the banning of plastic in packaging solutions. This is putting blow molded products in the spotlight with regulators and consumers. Riley will also provide insights on recycled high-density polyethylene production challenges and solutions, as well as new blow molding technologies and equipment used to reduce greenhouse gas emissions.

"It's an honor to be the keynote speaker at the Annual Blow Molding Conference, especially at this imperative time in the plastics industry," said Gary W. Riley, Sr., CEO of Uniloy. "As we face the challenges of increasing environmental regulations worldwide, our industry must continue to develop new technologies and solutions to meet the rising demand."

Uniloy's technologies, services, and solutions will be on display at booth #31 during the Annual Blow Molding Conference.
