

## **Uniloy to Exhibit Its Latest Product and Technologies at NPE 2024 The Plastics Show**

Tecumseh, MI – (April 22, 2024) – Uniloy, Inc., a global leader in blow molding machines and mold technology, will be attending NPE 2024 The Plastics Show on May 6-10 in Orlando, Florida. The Uniloy team will be available at booth #S15057, where they will display the company's latest products and technologies.

Built on an enduring legacy of blow molding mastery, Uniloy is trusted by a wide range of industries for 360-degree integrated solutions and support. It is the only blow molding machine manufacturer to offer four unique blow molding technologies, as well as custom blow molds and associated tooling. A leading innovator of solutions that enhance efficiency and productivity, Uniloy has developed cutting-edge equipment that helps customers achieve more sustainable manufacturing operations and reduce their environmental impact. In addition to the latest blow molding equipment, the company offers comprehensive aftermarket service and support, including parts, field service, technician training, complete machine retrofits, and rebuilds.

“Over the last year, we have made many new advancements to help our customers increase productivity and uptime,” stated Gary W. Riley, Sr., CEO of Uniloy. “We’re excited to share these latest machines, technologies, and retrofit options at this year’s NPE show.”
